

**We will *create the future of education, together.***

The University of Kansas is *now offering teachers in your district the opportunity to enroll in online graduate programs* from a *Top-20 School of Education*. The KU School of Education is looking for educators, like you, who want to *make a difference and redefine the student experience.*

**The University of Kansas offers more than a graduate education.** It's a learning experience that will **prepare you to make an incredible difference** in the lives of students and in your school, district or community.
